

DAY SCHOOL

Visions Day School provides a safe learning environment to meet the individual academic needs of students who are unable to function in a mainstream environment due to mental health issues, emotional traumas, or addictive and behavioral problems. The Day School creates a setting conducive to cognitive and emotional growth. Visions furnishes an environment that enables students to stay grounded and keep perspective in the face of adversity.

Masters Level Clinicians & Certified Counselors on site

Visions Day School

Students will receive individual instruction and tutoring as needed. Extended hours beyond the regular school day are also offered.

Our teachers and tutors have a love for learning and a passion for teaching. As cutting-edge educators, they work with students on a daily basis to achieve their academic goals, design individual lesson plans for struggling students, adapt new teaching methods, and communicate regularly with parents and schools to ensure students are on track with their education. The curriculum is tailored to meet the educational needs of students who aspire to pursue higher education.

Objectives & Goals

- Give adolescents a positive and clinically supported education
- Complete general education to reintegrate into a mainstream high school environment

or

- Successfully complete academic curriculum and graduate from Visions Day School
- College & SAT preparation
- Completion of honors level work
- Make up courses missed due to extenuating circumstances

In addition to a high-quality education, students receive a weekly individual counseling session. Sessions are facilitated by certified counselors and provide students the opportunity to discuss their progress, challenges, and struggles. Students will be given random drug tests to maintain a safe classroom environment.
